Understanding Touch

A touch is when someone puts their hand on you. Sometimes it feels nice, and sometimes it makes us uncomfortable.

Examples

- **Handshake**
  Lorem ipsum dolor sit amet consur este adipiscing elit sed do.
- **Tickling**
  Lorem ipsum dolor sit amet consur este adipiscing elit sed do.
- **Pat on the back**
  Lorem ipsum dolor sit amet consur este adipiscing elit sed do.

What is a Good Touch?

Lorem ipsum odor amet consectetuer adipiscing elit. Proin enim risus magna euismod pellentesque lacinia velit sapien aenean tempor stid diam euismod dolor maecenas rhoncus porta per uorper commodo dui et.

01 A handshake when meeting a friend

02 A doctor's check-up (with permission)

03 Holding hands while crossing the road

04 A hug from parents when you're happy

What is a Bad Touch?

- Forcing hugs or kisses
- Touching in a way that is sexual
- Someone touching your private parts
- Someone touching you when you say ‘No’

Lorem ipsum odor amet consectetuer adipiscing roin enim risus magna euismod pelleque lacinia velit sapien aenean.

Good Touch vs Bad Touch Area

INSTRUCTIONS

Go to a Slide When Delivering Your Presentation (Windows)

As you deliver your presentation, here is how to move from one slide to the next, move to a previous slide, or move to a specific slide anywhere in the presentation.

Go to the next slide

- Press the Right arrow key or Down arrow key.
- Mouse: Click once anywhere on a slide to move to the next one.

Note: *If you have a custom animation effect on your slide, clicking the slide starts the animation effect, rather than moving to the next slide. Use Go to a specific slide below to move to a specific slide and avoid triggering the animation effect.*

Go to the previous slide

- Press the Left arrow key or Up arrow key.
- Mouse: Right-click a slide, and then click **Previous** on the shortcut menu.

Note: *If you have a custom animation effect on your slide, clicking the slide starts the animation effect, rather than moving to the next slide. Use Go to a specific slide below to move to a specific slide and avoid triggering the animation effect.*

Go to a specific slide

- Type the slide number, then press Enter.
- Mouse (version **2013 or newer**): Right-click a slide, select **See All Slides**, and then click the slide you want to display to the audience.
- Mouse (versions **2010, 2007**): Right-click a slide, point to **Go to Slide**, and then click the slide you want to display to the audience.

Go to the end of a presentation

- Press the End key on the keyboard.

Go to the beginning of a presentation

- Press the Home key on the keyboard.

INSTRUCTIONS

Go to a Slide When Delivering Your Presentation (MacOS)

As you deliver your presentation, here is how to move from one slide to the next, move to a previous slide, or move to a specific slide anywhere in the presentation.

Go to the next slide

- Press N, Right arrow, Down arrow, or Spacebar.
- Mouse: Click once anywhere on a slide to move to the next one.

Note: *If you have a custom animation effect on your slide, clicking the slide starts the animation effect, rather than moving to the next slide. Use Go to a specific slide below to move to a specific slide and avoid triggering the animation effect.*

Go to the previous slide

- Press P, Left arrow, Up arrow, or Delete.
- Mouse: Right-click a slide, and then click Previous on the shortcut menu.

Note: *If you have a custom animation effect on your slide, clicking the slide starts the animation effect, rather than moving to the next slide. Use Go to a specific slide below to move to a specific slide and avoid triggering the animation effect.*

Go to a specific slide

- Type the slide number, then press Return.
- Mouse: Right-click a slide, point to By Title on the shortcut menu, and then select a slide by title or slide number.

Go to the beginning of a presentation

- Type 1, then press Return.
- Mouse: Right-click a slide, point to By Title on the shortcut menu, and then select a slide by title or slide number.

Go to the end of a presentation

- Type the number of the last slide, then press Return.
- Mouse: Right-click a slide, point to By Title on the shortcut menu, and then select the last slide in the list.
